No. is the number of results predicted by chance to have a score greater than or equal to the score of the result being printed, and is derived by analysis of the total score distribution.
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              Sequence 16, Sequence 7, Sequence 3, Sequence 3, Sequence 3272 Sequence 3272 Sequence 3272 Sequence 6396 Sequence 6396 Sequence 6396

APPLICANT: LYON DOUGETE-Stamm et al
TITLE OF INVENTION: BETDERMIDIS FOR DIAGNOSTICS AND THERAPEUTICS
TITLE OF INVENTION: BETDERMIDIS FOR DIAGNOSTICS AND THERAPEUTICS
TITLE OF INVENTION: BETDERMIDIS FOR DIAGNOSTICS AND THERAPEUTICS
FILE REFERENCE: GTC-007
CURRENT APPLICATION NUMBER: US/09/134,001C
CURRENT FILING DATE: 1998-08-13
PRIOR APPLICATION NUMBER: US 60/055,779
PRIOR FILING DATE: 1997-11-08
PRIOR FILING DATE: 1997-11-08
PRIOR FILING DATE: 1997-10-08
APPLICANT: Control and Prevention
APPLICANT: Lal, Altaf A.
APPLICANT: Lal, Altaf A.
APPLICANT: High Shi, Ya
APPLICANT: Handle Shi, Ya
APPLICANT: Hashain, Seyed E.
TITLE OF INVENTION: Recombinant Multivalent Malarial Vaccine Against Plasmodium Falci

No. is the number of results predicted by chance to have a score greater than or equal to the score of the result being printed, and is derived by analysis of the total score distribution.
